PRESS RELEASE

Upgraded IBLUK web site

Industrial Batteries (UK) Limited – IBLUK – has recently upgraded their web site (www.ibluk.co.uk) to give better support to users. The most important changes have been made to make the site easy to navigate, so that users can find the information they require quickly and efficiently.

The home page now gives direct links to the principle parts of the site and contains a monthly summary of information on recent updates and announcements. A digest for the previous 12 months of news can be found in the IBLUK news page.

IBLUK are the main distributor of Alcad nickel-cadmium batteries in the UK and the site has information on the comprehensive range of products available. There is also an overview of the full range of Saft industrial products, which are also supplied by IBLUK.

The principle battery applications are covered by a range of downloads which give information on the application and the battery requirements.

There is an FAQ sector which gives battery information as well as normal commercial answers and downloads. Users are encouraged to pose their questions. There are also links to other relevant sites.

IBLUK are a UK company specialising in industrial nickel-cadmium batteries and support. In addition to a complete range of advanced battery products, IBLUK assists its customers with an extensive selection of approved accessories, a technical consultancy service, user training and a battery replacement and recycling service
