Glossary of Useful Battery Terms from IBLUK

Industrial Batteries (UK) Limited – IBLUK – have produced a leaflet of useful battery terms which can be downloaded from their web site.

The leaflet, starting with 'Accumulator' and ending with 'Wet Cell', has 64 different entries covering a broad range of battery terms used in the industry.

The terms explained are mostly generic and not technology dependant, so they are applicable to all battery types used in industrial applications.

The leaflet is available as a double sided A4 size download from the web site and is also available as a more compact tri-fold document which is available on request from IBLUK.

IBLUK are a UK company specialising in premium quality industrial nickel-cadmium batteries and support. In addition to assisting the customer in his choice of battery and battery stand, it can also offer an extensive selection of approved accessories, a technical consultancy service, user training and a battery replacement and recycling service
